

## CFAES UTV Safety Training Certification Form

The College of Food, Agricultural and Environmental Sciences promotes and practices safety on the farm and in the field. Operation of a Utility Type Vehicle (UTV) must be done in a safe manner to prevent injury to the operator or pedestrians in the area; and to prevent damage to property during operation. Safe operation of a UTV must be covered in operator training.

Once properly instructed, the UTV operator must assume responsibility for his or her safety on the UTV and each UTV operator will sign a form indicating completion of training. Employees (permanent or student), non-employee students (who operate UTVs as a course requirement) or CFAES program participants / volunteers will receive initial training before being assigned to operate a UTV and will complete refresher training every year.

I do hereby acknowledge on \_\_\_\_\_ (Date) I completed the Ohio State University, College of Food, Agricultural and Environmental Sciences "UTV Operator Safety Training" course from:
