KEEP YOUR LABORATORY SECURE

When working with hazardous material in the laboratory, it can be easy to forget about the harm these materials can cause if they fall into the wrong hands. Here are some tips to keep your laboratory secure.

- Close and lock lab doors when no one is present
- All lab employees should wear ID badges
- Develop and implement lab security procedures
- Restrict off-hours access to only individuals authorized by PI
- Keep all hazardous materials secured from unauthorized access or removal
KEEP YOUR LABORATORY SECURE
