

OSU EHS – Respiratory Protection Program

Ohio State's Environmental Health and Safety (EHS) group, in compliance with state laws, adopted from Federal Occupational Safety and Health Administration (OSHA) rules found at [29 CFR 1910.134 \(link is external\)](#), has developed a General Respiratory Protection Program. This program covers all faculty and staff employed by The Ohio State University, who are required to wear respiratory protection.

EHS provides respiratory fit tests for Ohio State employees required to use respiratory protection. Respiratory fit tests can be scheduled by using the [Ohio State EHS Respirator Fit Test Scheduler \(calendar\) \(link is external\)](#) (follow the instructions after clicking the link) or can be requested by using the [Service Request Form](#) (select Occupational Health and Safety from the Service Area drop-down menu and Respiratory Fit Test from the Service drop-down menu). Parking and location information for respirator fit tests can be found in the [directions](#) page.
